

Why are more & more Australians installing the Eco-Pure water filter system in their new kitchens?

The combination of rusty pipes, increased pollution, drought conditions and record levels of chemicals added to the water supply all contribute to unpleasant taste and odour, as well as questionable safety of our drinking water.

The Eco-Pure twin carbon filter system uses the latest water purification technology to eliminate bad taste & odour and provide an unlimited supply of safe, refreshing, great tasting water. Eco-Pure will also remove parasitic cysts like cryptosporidium and giardia.

People are discovering the health benefits of keeping their bodies hydrated with 8 or more glasses of water a day. With over 70% of the human body being water, it is common sense to drink the best quality available.

Eco-Pure gives you the convenience of an endless supply of great quality filtered water on tap in your home without the high cost of bottled water to both you and the environment.

5 Year Warranty

The Eco-Pure system comes with a 5 year warranty on all parts (other than filter cartridges) - anything that fails due to faulty materials or workmanship will be replaced at no charge.

Money Back Satisfaction Guarantee

We are so confident you will be happy with your Eco-Pure system we guarantee your satisfaction. No fine print, simply, if for any reason you are not totally satisfied with your Eco-Pure system, return it to us within 90 days for a 100% refund.

*Have you thought
of everything for
your new kitchen?*

The Latest Filtration Technology

High Performance 2 stage filters

1st stage - 5 micron carbon filter for sediment and chemical reduction.

2nd stage - 1 micron carbon block filter for further chemical and cyst (cryptosporidium & giardia) reduction.

Also reduces - dirt, rust, algae, chlorine, pesticides, herbicides, lead, contaminants and many other chemicals.

Improved water quality by utilising the latest vertical filtration technology. Increased water contact time with the twin carbon medium guarantees superior filtration.

The Eco-Pure system takes up less than 1/3 the cupboard space of conventional twin systems.

The high performance cartridges, under normal conditions, only need annual replacement

The Eco-Pure filter system is suitable for both town and tank water.

Tested and complies to AS/NZS 3497, item 5.2, 5.3, 5.4

EcoPure

WATER FILTER SYSTEMS

Luxury Designer Faucet
